

# SANTA FE NEW MEXICAN

VOL. 43.

SANTA FE, N. M., TUESDAY, MAY 1, 1906.

NO. 61.

## NEED MORE MONEY EXPENSES HEAVY

### Fund Appropriated for Relief Near- ly Gone.

## THE CITY NOW LIGHTED

### Work of Clearing Debris and Reconstruction Progresses Rapidly.

San Francisco, May 1.—For the first time since the earthquake and fire the street lights last night gleamed in nearly all portions of the city. The electric light companies of the Potrero plant, which was practically uninjured, turned on the lights in the Potrero district in the southern part of the city. The company announced that there will be several arc lamps in operation throughout the unburned sections of the city tonight, operated from the Potrero plant, and they claim that the plant will be able to supply the entire unburned district of the city.

Last night was the warmest since the thousands of people have been compelled to camp in the open. In nearly all cases the homeless are now well provided with warm bedding and are comfortably housed in tents, but the food question is causing the authorities much worry.

### Disposition of Funds.

Washington, May 1.—James D. Phelan, chairman of the finance committee of San Francisco, has been in telegraphic communication with Secretary Taft regarding the government appropriation. Phelan is inquiring to what extent, if any, the finance committee could expect to handle the government appropriation. Taft replied that although without lawful authority, he had ordered sent to San Francisco rations costing two hundred thousand dollars, tentage, blankets, cots and bedding costing more than a million, and medical stores costing a hundred and fifty thousand. Transportation cost one hundred and fifty thousand more. Congress ratified this action and appropriated two and a half million dollars and authorized Taft to use this, not only for subsistence and stores, but also for the transportation of troops asked for by General Greeley and Major Schmitz.

### Money Almost Gone.

There is left available not to exceed seven hundred thousand dollars, which, under the law, can be expended only for rations, quartermasters' and medical supplies and the transportation of troops. This can be expended only through lawful agents of the War Department. Consequently Taft has no authority to turn over the money to the committees. As president of the Red Cross Society, Taft has forwarded by telegram three hundred thousand dollars out of the funds of that society and is prepared to order the remittance of more.

### Shylocks' Troubles Begun.

San Francisco, May 1.—Money brokers are now confronted with a serious problem, especially those who month after month have been in the habit of advancing salaries to municipal employees. Today is pay day in many departments, the day on which brokers have been in the habit of presenting their demands and collecting from two to five per cent commission. Between the fire and the earthquake many assignments were destroyed and Auditor Horton is besieged by anxious brokers who are demanding that he accept a substitute for their missing powers of attorney, but he refuses. Sixty per cent of the city's servants draw their salaries through brokers.

### Surrounding Towns Need Money.

Oakland, May 1.—Governor Pardee who just returned from a trip to Santa Rosa, said today that the pressing need in Santa Rosa is money. The debris and wreckage of many buildings must be cleared away before business can be resumed. It is estimated that \$147,000 will be required in this work. There is a call for \$25,000 or \$30,000 for immediate needs. A report has been received from San Jose which also suffered severely, which says the local relief fund is ample to provide for all citizens as well as all refugees from San Francisco. At Agnews insane asylum where great damage was done, most of the inmates are now living in tents. Little has been heard from Salinas and other places wrecked but as yet no appeals for outside assistance have been made.

### Provisions Scarce.

San Francisco, May 1.—In spite of the enormous quantities of food stuffs rushed into this city since the earthquake, there can be no let up in the sending of provisions or the unfortunate people of the city will suffer greatly from famine. So far over 700 freight car loads of food have been divided among the needy sufferers, and a statement by Mayor Schmitz based on knowledge from various railroad companies and telegrams he had received states that only 118 cars of

## AMERICANS IN THE LEAD

In Historical Olympic Games United States Stands First in Most Events.

Athens, May 1.—Americans have already won the greatest number of events in the Olympic games. The Greeks come next, with the Swedes third and English fourth. The superiority of the individual American is acknowledged, but the defeated athletes are endeavoring to find some solace in the fact that Americans had many strings to their bow and held a large superiority in numbers in nearly all events. The various finals are being decided today preparatory to the Marathon race, the great event of the games. There will be forty-seven competitors in this 26-mile run, which starts from Marathon at 3 o'clock this afternoon and finishes at the Stadium.

### Canadian Takes First Honors.

Athens, May 1.—The Marathon foot-race was won by Harring, of Canada, today. Time, 2 hours, 51 minutes, 23 3-5 seconds. Swamberg, Sweden, second, eight yards behind the Canadian.

## STEAMER FOUNDERS.

### Four Men Go To Bottom With Sinking Excursion Vessel—Struck Sub- merged Rock.

Guernsey, Channel Islands, May 1.—Striking a submerged rock while in the channel immediately after leaving the Island of Sark, the passenger steamer Courier foundered and sank to the bottom, drowning three members of the crew and one passenger. The balance of those on board took to the open boats and were later rescued.

## STREET RIOTS RESULT FATALLY

### Warsaw Resembles City of the Dead —Strike Failed Materi- alize.

Warsaw, May 1.—Three policemen were killed in the streets during the night; but the threatened long May day outbreaks have not materialized. Warsaw is like a city of the dead. The shops and restaurants are all closed. No cabs or street cars are running and no newspapers are being sold.

## KING EDWARD IS INJURED

### Suffers Severely by Fall While on Royal Yacht Victoria—Exagger- ated Rumor.

Naples, May 1.—The fact that King Edward had a serious fall on the stairs of his royal yacht Victoria yesterday before leaving for Vesuvius has caused exaggerated rumors as to his condition. It is said today, however, that the king is not badly injured.

## QUIET IS REGAINED.

### After Shooting Affray Yesterday For- eign Miners Are Cowed.

Mount Carmel, Pa., May 1.—Absolute quiet prevails here this morning, following the shooting of a number of foreign miners yesterday by a detachment of the state constabulary. None of the victims are dead today but four of them are thought to be fatally injured.

food were on the way. If this proves true, there will be barely enough to last more than another week, before a condition of famine will again present itself to the survivors of the earthquake.

### New City Building.

San Francisco, May 1.—San Francisco is to build a new city hall at once, only a temporary structure, but one that will do away with the necessity of paying the high rent which owners of whatever property is available are inclined to charge. It will be built on the old Lincoln school site on Fifth Street and will be of corrugated iron or steel frame work and contain all the city offices.

### False Reports Responsible.

"The information was spread broadcast several days ago that we had more food stuffs than we could find use for, and that perishable goods were being hauled away and dumped into the bay. As a result of this, there have been almost no provisions sent in here for some time," said the mayor. "It is certain to those on the ground that this city will not regain its normal condition as regards to supplies for many days, and in the meantime some care must be taken that help is given us."

### Lack of Money Hampers Relief.

As a result of a shortage in the appropriation for street cleaning purposes, nearly 1,000 men who had been employed by that department were turned away last night. The board still retains many employees, however, and the work of clearing up is being pushed as rapidly as possible.

### List of Dead.

Santa Rosa, Cal., May 1.—The list of dead and missing here now reaches a total of 77. The last body found was that of Mrs. Augusta S. Rogers, a dressmaker.

## MINERS' STRIKE TIES UP TRAFFIC

### May Day Labor Troubles Along Great Lakes.

## NO BOATS ARE MOVING

### Estimated 10,000 Longshore- men Refused to Report for Work.

Duluth, Minn., May 1.—The great lakes mariners strike was officially inaugurated at the head of the lakes at midnight. All long-shoremen went out but the tug men not being notified are working as usual today.

### Chicago Scene of Strike.

Chicago, May 1.—At midnight all members of the long-shoremen's union of south Chicago, numbering about 3,000 men, quit work in response to a general strike order.

### Tie-Up on Lake Erie.

Cleveland, Ohio, May 1.—Every member of the international long-shoremen, marine and transport workers unions, employed on boats of members of the Lake Carriers Association quit work at midnight and today not a pound of coal or grain is being handled from the port of Cleveland. The same condition exists practically everywhere on Lake Erie. In Cleveland 4,000 men are directly affected, 1,000 of whom are seamen.

## DYNAMITE EXPLOSION.

### Plot to Wreck Home of Assistant Manager of the Cananea Copper Company Successful.

Cananea, Mexico, May 1.—A dynamite explosion undoubtedly the result of a carefully planned and executed plot Saturday night wrecked the home of Harry Kirk, assistant manager of the mining division of the Cananea Consolidated Copper Company, and almost fatally injured Mr. Kirk.

Kirk, who is the brother of James Kirk, vice president and manager of the Cananea Copper Company mining division was alone at his home at the time of the explosion. He was rendered unconscious and several hours later was taken, still senseless, from the demolished ruins of his home. He was taken to the hospital and revived when it was discovered that his injuries were not serious. The general opinion is that the attempt was made by several Mexicans who have just been discharged from the employ of the company, but there is no proof to sustain this theory. Kirk was one of the best liked men in town and the outrage has created considerable excitement.

## REMAINS A MYSTERY.

### Cause of Quarrel Resulting in Fatal Shooting Affray Being Carefully Suppressed.

Deming, N. M., April 30.—The true reason for the quarrel which lead up to the fatal shooting affray resulting in the death of County Superintendent of Schools U. Francis Duff, and the severe injury of Professor Dickey has not yet become known and the few who are familiar with the circumstances of the quarrel say nothing will be known until after the meeting of the grand jury, even should action be taken by that time.

### Friends Constant.

It is not believed the close friends who were in the possession of the secrets of either of the parties to the quarrel will reveal the reasons. While many claim to know the real cause of the hatred existing between the two men, they generally feel that little can be accomplished by making the matter public and therefore refuse to talk. It is believed this afternoon that Professor Dickey will recover.

## CLERKS SUSPENDED.

### Collieries Closing—Causes Office Em- ployees to Take Forced Vacation.

Shamokin, Pa., May 1.—A large number of shippers and clerks were suspended today on the Shamokin division of the Philadelphia & Reading Railroad until the collieries resume work.

### DAMAGE BY TORNADO.

Oxford, Neb., May 1.—Telegraph and telephone wires are down, a number of residences toppled to the street, and many persons are seriously although not fatally injured by a tornado which struck Furnas County last night, doing much damage. The storm arose without notice, the wind sweeping down from an almost clear sky, and causing the greatest excitement.

## LABOR UPRISING THREATENS PARIS

### Fear Riotous Mobs Will Attempt Violence.

## GUARD AMERICAN EMBASSY

### Police Muster All Available Forces to Prevent Trouble —Procession Broken up.

Paris, May 1.—Owing to the excitement at the Place de la Republique where many workmen had gathered, troops were summoned and over a hundred arrests were made. A detachment of troops has just taken a position around the Bank of France.

Several troops of cavalry and a number of infantry regiments have taken the positions assigned to them throughout Paris and in the outskirts of the city, as a precaution against any May day disturbances.

### Battle With Police.

The striking printers attempted to march from their labor headquarters singing revolutionary songs. They attacked the police who intervened and the latter were compelled to draw their revolvers. The procession then was broken up. A police guard has been stationed at the American embassy.

### Mobs Fill Streets.

Paris, May 1.—The Place de la Republique is now a scene of continuous arrests. The number of disorderly persons has already increased by several thousands.

### Cavalry Charges Strikers.

Paris, (Bulletin) 3 p. m., May 1.—A procession of strikers carrying a black flag was charged by the police. A fight followed in which the flag was seized and many arrests made. A squadron of cavalry charged the manifestant's place De La Republique, forcing the rioters towards the St. Martin canal. The dragons then formed a cordon, cutting off all ingress to the square. Fifty additional arrests were made.

### Strikers Meeting.

Paris, May 1.—Six thousand strikers are holding a meeting at the labor exchange this afternoon and more are assembling at the headquarters of the confederation of labor. The military has surrounded the buildings and is awaiting the exit of the strikers. The police charges are continuous on the Boulevard Magenta and trouble is feared tonight.

## PEREMPTORY WRIT OF MANDAMUS DENIED

### In Case of Sandoval vs. Albright In- volving Assessor's Fees From Bernalillo County.

In the matter of the petition for a mandamus to compel Territorial Auditor W. G. Sargent to draw a warrant in the sum of \$1,600 upon the territorial treasury in favor of Jesus M. Sandoval former assessor of Bernalillo County for commissions claimed to be due the said Sandoval as assessor of the county of Bernalillo during the years 1903, and 1904, Judge John R. McFie yesterday declined to grant the peremptory writ prayed for. It will be remembered that Sandoval was elected assessor of the county at the November, 1904, elections, but was thereafter ousted by the board of county commissioners upon the allegation that he was not a resident of Bernalillo, but in reality, a resident of Sandoval County, and other disqualifications to hold the office; that he was succeeded by George F. Albright, who performed the duties of the office for the major part of 1903 and for the entire year 1904. Action was brought by Sandoval to recover the amount above claimed, which is now pending in the Supreme Court of the United States on appeal and in which Albright the de facto assessor has given an appeal and supercedens bond. Attorney N. B. Field for Sandoval, upon hearing the decision of the court declining the peremptory writ of mandamus, made a motion that judgment upon the pleadings be given. This the court also denied and the matter will now go over until the case can be heard on the pleading and then decided. No injury can happen to Sandoval as the supercedens bond already given in another case, but involving the same amount of money, will hold him harmless against loss, should the matter be finally decided in his favor.

## DEATH OF POSTMASTER AT ELIZABETHTOWN.

G. Beebe, postmaster at Elizabethtown, Colfax County, died in his chair last week of heart failure. Beebe had been a resident of Colfax County since 1880 and was a veteran of the Civil War.

## INDIAN APPROPRIATION BILL CONSIDERED

### Senate Discusses Smoot Case but Reaches No Conclusion—Pike's Memorial.

Washington, May 1.—Representative Sherman immediately after the approval of the House Journal asked immediate consent to take the Indian appropriation bill from the speaker's table, non-concur in the Senate amendment and send the bill to conference. Representative Williams facetiously remarked that "a girl in Arizona had been asleep for seven weeks, but on awakening, found to her disgust that the statehood bill had been asleep longer than that and returned to sleep, and therefore he would have to insist on his objection." The bill will now have to be considered by the House.

### Smoot Case Discussed.

Washington, May 1.—The Senate committee on privileges and elections today discussed the case of Senator Smoot, but reached no conclusion. The committee will meet again Friday. "To the Land of Sunshine" Appreciated.

### Special to the New Mexican.

Washington, May 1.—The House committee on territories today passed a unanimous resolution thanking the Bureau of Immigration of New Mexico and its secretary for copies of the book entitled "To the Land of Sunshine," containing information concerning the resources, conditions and industries of the Territory, and expressing its great appreciation of the work.

### New Mexico Pensions.

### Special to the New Mexican.

Washington, May 1.—The President today signed the bill introduced by Delegate Andrews and passed by both Houses of Congress, granting a pension of \$24 per month to John C. Anderson, of New Mexico. Owing to the work of Delegate W. H. Andrews, the following pensions for New Mexico citizens have been allowed by the pension division of the Department of the Interior: Rebecca Clover, of Raton, 38 p. m. month, from January 26, 1906, and accrued pension; Smith H. Simpson, of Taos, \$12 per month from March 23, 1906; Frederick Gilles, of Fort Bayard, \$72 per month from February 6, 1906; Fred Happel, of Fort Bayard, \$30 per month from January 20, 1906; Deselerio Aragon of Puerto de Luna, \$6 per month from March 15, 1906; Earnest F. Witte, of Fort Bayard, \$12 per month from March 21, 1906; Francisco Ortiz y Pacheco, of Santa Rosa, \$12 per month from April 5, 1906.

### Zebulon Pike Honored.

Washington, May 1.—The Senate today passed a bill authorizing the issuance of \$100,000 worth of medallions to be sold in connection with the proposed Pike's Peak memorial exercises to be held at Colorado Springs next September. The proceeds of the sale are to be devoted to the erection of a monument to Captain Zebulon M. Pike, discoverer of the peak bearing his name.

## DONATION TO CITY OF ALBUQUERQUE

### Andrews' Bill to Grant Section of Land for Public Park Reported Favorably.

The bill introduced by Delegate W. H. Andrews, No. 1833 to grant to the city of Albuquerque a section of public land as a public park, has been favorably reported by the proper committee and will likely be enacted into law. The report reads:

The committee on public lands, to whom was referred the bill (H. R. 11957) granting to the town of Albuquerque a section of land for public purposes, having had the same under consideration respectfully recommend the passage in lieu thereof of the accompanying bill, entitled "Granting land to the city of Albuquerque for public purposes," which bill is recommended by the Secretary of the Interior in the accompanying letter to your committee.

The city of Albuquerque has urged upon the committee the passage of a bill to give it more space for public park purposes. It has been the custom and general practice of Congress since 1895, to grant land to cities without price; in fact, as is shown by the letter of the commissioner of the general land office, which is incorporated as a part of this report, land has been given to many of the cities in the western states. The commissioner of the general land office, who drew the text of the accompanying bill, appears to believe that the bill in this form is much more satisfactory than was the bill proposed, and in this view the committee concur.

### OUTLAW KILLED.

Portland, Ore., May 1.—A telegram from a correspondent at New Era states that Outlaw Smith has just been shot dead.

### MINOR LABOR TROUBLES.

Boston, May 1.—May day was marked by numerous minor strikes throughout New England. The majority of the difficulties are confined to building trades, however, and an early settlement is expected.

## SHOOTS HER BABE THEN SUICIDES

### Las Vegas Woman Performs Fear- ful Deed.

## MAKES DELIBERATE PLANS

### Kills Herself and Infant Son After Leaving Pitiful Note Preparations Complete.

### Special to the New Mexican.

Las Vegas, N. M., May 1.—Mrs. James A. Grieff, a well known dressmaker of this city was found dead in bed in a pool of blood with a bullet hole in her forehead, beside the body of her four year old son, Freddie, who had also been shot through the head, about 11 o'clock this morning. On the dresser was found a note as follows:

"Don't let anybody look at our corpses. Put us in and shut us up. Grieff."

### Prepares for Deed.

About half past ten o'clock Mrs. Grieff sent Mrs. Sanches, a dressmaker, who had been assisting her, down town after some patterns and told her that if any one wanted her, to say that she did not want to be disturbed under any conditions. When Mrs. Sanches returned to the house she found the doors locked and the blinds pulled down. Fearing that something was wrong she managed to open a bed room window and saw the mother and little boy lying in the bed, both with gaping holes in their foreheads and soaked in blood. The little boy was alive but unconscious and the mother was taking her last breath when they were discovered. The little fellow still lives but there is absolutely no hope for his recovery. No cause can be assigned for the deed except that Mrs. Grieff's father, E. P. Andrews, has been very ill and she feared that he was losing his mind.

## TEACHERS REAPPOINTED

### Same Instructors Will Return Next Term—Sixto Garcia Resigned, Laughlin Elected.

The city board of education met in special session in the office of Judge N. B. Laughlin yesterday afternoon, Thomas B. Catron presiding. The members present were N. B. Laughlin, Charles F. Easley, A. C. Ireland, Jose Segura, Sixto Garcia and James L. Seligman.

The purpose of the meeting was particularly to make appointments of teachers for the coming term and action was taken upon this matter. Professor J. A. Wood was re-elected superintendent, J. R. Williams was re-elected principal of the high school with Miss Laura Simpson assistant and the other teachers were re-elected as follows: First ward, Miss Elizabeth DuVal; second ward, Miss Louisa Schneppe, Miss Amelia Guterman, and Miss Ella Miller; third ward, Miss Matilde Alonso, teacher of Spanish in the high school, Miss Edith Walker, Miss Elizabeth Phelps, Miss Ellen Daniels, Miss Sadie Barney and Mrs. Dora C. Fletcher.

Sixto Garcia tendered his resignation as member of the school board and Judge N. B. Laughlin was elected to fill the vacancy.

There was a slight contention between City Engineer John H. Walker and Corbett & Collins, concerning the manner in which the new cement walks being built on the Fort Marcy Addition, should be laid. Engineer Walker contended that the blocks ought to be laid separately, while the contractors having charge of the work insisted that the walk ought to be laid in one piece and then the blocks could be marked off at equal intervals. It was decided to refer the matter to I. H. Rapp, the Las Vegas architect.

## WATER SYSTEM FOR CARLSBAD

### Citizens Vote to Grant Franchise to Public Utilities Corpora- tion.

Carlsbad, by a vote of 152 to 47, at a special election, decided to grant a franchise to the Public Utilities Company, which will furnish water for domestic and irrigation purposes. The company promises to give the town a fire pressure of 60 pounds to the inch and will take over the present system, remodel it and extend the water mains in every direction. The water is to be obtained from an old well on Greene's Heights. Pumps will be installed at once and stand pipes erected.
